

SUJIT SWAIN

Backend Engineer | Java | Microservices | Data | Cloud | APIs

Bangalore, India

Email: sujitswain2023@gmail.com | **Phone:** +91 8925114798

LinkedIn: [linkedin.com/in/sujit-swain-tech](https://www.linkedin.com/in/sujit-swain-tech)

PROFESSIONAL SUMMARY

Accomplished Backend Engineer with 2+ years of expertise in architecting secure, high-performance APIs and microservices within AWS cloud ecosystems. Skilled in enhancing Developer Experience, leveraging T-shaped skills, and implementing robust, scalable solutions. Proven success in API performance tuning, cost optimization, and delivering customer-focused solutions. Proficient in industry-leading tools like Swagger, and advanced profiling techniques, as well as Agile tools such as Jira and Confluence for streamlined collaboration and transparency. Recognized for proactive ownership, innovative problem-solving, and elevating code quality, system resilience, and customer satisfaction.

TECHNICAL SKILLS

Programming Languages & Frameworks: Java (17+), Python, Spring Boot, Spring Data JPA, Spring Security, Spring Batch, OAuth2, JWT, JavaScript, React

DevOps & Cloud: Jenkins, APIM, GitHub Actions, AWS (EC2, S3, Lambda), CI/CD, Docker

Documentation & Collaboration: Swagger, Postman, Confluence, Jira (Agile)

Databases: MySQL, Redis

Monitoring & Testing: JUnit, Mockito, AWS CloudWatch, Kibana

Version Control & Build Tools: Git, Maven, Gradle

Messaging & Integration: Apache Kafka, Azure Service Bus

WORK EXPERIENCE

Software Engineer | Capgemini, Bangalore | Jan 2024 - Present

Client: Goldman Sachs (via Capgemini)

- Developed REST APIs using Java 17, Spring Boot, Spring MVC, Spring Data JPA, and Hibernate for billing, data processing, and insurance workflows.
- Implemented secure API authentication and authorization using Spring Security, OAuth2, and JWT.
- Optimized multithreaded CSV processing for **10K–50K** records, reducing execution time from approximately **10 minutes to 1.2 minutes**, an **88%** improvement.
- Developed Spring Batch jobs, optimized MySQL queries, and integrated AWS S3 and AWS CloudWatch for scheduled processing, storage, and monitoring.
- Worked in Agile Scrum teams, contributing to sprint planning, daily stand-ups, peer reviews, regression testing, Jira tracking, and technical-debt reduction.

Client: Manulife

- Developed and maintained Spring Boot REST APIs supporting business workflows for a life insurance application.
- Integrated **Azure Service Bus** for asynchronous communication in **PDF generation workflows**.
- Implemented PDF document generation using **FreeMarker templates** and **PDF AcroForm** fields.
- Actively participated in **peer reviews** and **discussions**, helping reduce technical debt and improve delivery quality.

PROJECTS

Order Processing System - Event-Driven Microservices

[GitHub](#)

Java, Spring Boot, Apache Kafka, MySQL, AWS S3, Stripe

- Designed an event-driven microservices platform with independent Order, Payment, Inventory, Notification, and PDF services using Spring Boot and Apache Kafka.
- Implemented idempotent event processing, payment webhook handling, optimistic locking for inventory reservations, and Stripe payment integration.
- Integrated AWS S3 for invoice and PDF storage while designing reliable asynchronous communication between services.

Distributed API Gateway & Rate Limiter

[GitHub](#)

Java, Spring Boot, Redis, Docker

- Designed a distributed API Gateway with configurable Token Bucket rate limiting for Free and Premium user tiers.
- Implemented tier-based request quotas, allowing Premium users higher request limits than Free users.
- Used Redis as shared state and Redis Pub/Sub to synchronize rate-limit policy changes across gateway instances without restarts.

CERTIFICATIONS

[AWS Certified Cloud Practitioner - CLF-C02 | 2026](#)

EDUCATION

Bachelor of Technology in Information Technology

Puducherry Technological University | CGPA: 9.33

August 2019 - May 2023

LANGUAGES

English, Tamil, Odia, Hindi

PROFESSIONAL QUALITIES

Team Collaboration, Ownership, Adaptability
